ZI000

ZI001 In the 1990s, Harrow replaced old style dustbins with green wheelie bins
ZI002 The contents were collected by new style automated collecting carts
ZI003 Here is one in Nower Hill
ZI004 Sometimes collecting was ‘contracted out’ to commercial companies
ZI005 Next came boxes for every household to re-cycle paper metal and glass
ZI006 And appropriately compartmentalized collecting vehicles
ZI007 Large re-cycling bins were put out in some streets – here in Cannon Lane
ZI008 And here next to Pinner Underground station
ZI009 Then doggie waste disposal bins in parks and open spaces
ZI010 While old style waste bins in parks and elsewhere still often overflowed
